No, I have not grown as a writer b/c I did not learn any new things.
I have learned to work with others and see dynamics. I need to work on writing, reading,
researching, proofreading, editing, and writing a final draft. Besides that, I need to organize,
fix, plan, keep or schedule my work. This should help me become a better writer.
Other than that, I need more learning, feedback, and other useful advice and tips.
